Retirement Targets	Mainstream Platforms (must be supported)		
Containment Targets	Emerging Platforms		
Implications and Dependencies			
Roadmap Notes			

# **DISCIPLINE: Identification and Authentication**

## **Discipline Roadmap for: Administration (Provisioning)**

### ■ **Discipline Boundaries:**

- Concerned with the security aspects of provisioning and how they inter-work with password and single sign-on initiatives. There is a blurring of the lines between this and systems management and the two must work together to achieve compliance with requirements.

### ■ **Discipline Standards:**

- None

### ■ **Migration Considerations:**

- Substantial costs and complexity involved based on prior user provisioning system. Each situation is a case by case consideration.

### ■ **Exception Considerations:**

### ■ **Miscellaneous Notes:**

### ■ **Established**

- March 26, 2008

### ■ **Date Last Updated:**

- March 26, 2008

### ■ **Next Review Date:**

- November 2009
